# Sanika Shendye

Calgary, Canada | (587) 433-5693 | srshendye@gmail.com | linkedin.com/in/sanika-shendye/ | Portfolio: sanika-shendye.vercel.app

## EDUCATION

**Bachelor of Science (Software Engineering) & Bachelor of Commerce (Business)** **Sep 2020 - Jun 2026**
*University of Calgary – Schulich School of Engineering & Haskayne School of Business* *Calgary, AB*
- **GPA:** 3.90
- **Achievements:** Dean's List for Academic Achievement (Engineering & Business, 2020 - 2026)

## SKILLS

**Technical Skills**: Python, TypeScript, JavaScript, Java, C, C++, SQL, HTML, CSS, VBA, Git, Shell scripting, React, Power BI, Power Automate, Google Analytics, Microsoft Office (Excel, Word, PowerPoint), DAX, Predictive and prescriptive modeling, AI tools

**Professional Skills**: Cross-functional collaboration, stakeholder communication, project coordination, adaptability

## EXPERIENCE

**Seequent** **May 2024 - Aug 2025**
*Software Developer Intern (Co-op)* *Calgary, AB*
- Resolved 50+ front-end bugs and performance issues across a large-scale geoscience TypeScript/React web application over a 16-month term.
- Mentored a new team member through documentation, best practices, and system context, and conducted peer code reviews to maintain code quality.
- Participated in agile ceremonies including sprint planning, code reviews, and feature demos, communicating technical updates to both engineering and non-technical stakeholders.
- Enhanced user engagement tracking and reporting through Google Analytics event metrics.

**Petronas Canada** **May 2023 - Aug 2023**
*Production Engineering Data Analytics Summer Student* *Calgary, AB*
- Led a company-wide Power BI reporting initiative sponsored by the COO, collaborating cross-functionally across three Canadian offices to gather requirements and present proposals to executive leadership.
- Created real-time digital signage of critical business metrics deployed across all three offices.
- Automated repetitive reporting tasks using Power Automate and documented data sources, processes, and best practices to support long-term maintainability.

**Sylvan Learning Centre** **Nov 2021 - Aug 2023**
*Math and English Teacher* *Calgary, AB*
- Delivered individualized Math and English instruction, developing curriculum-based lesson plans and summer camp programs to support students reaching grade-level proficiency.

## PROJECT EXPERIENCE

**FTG Aerospace** **Sep 2025 - Apr 2026**
*Capstone Project – Data Analytics Lead* *Calgary, AB*
- Designed a Python-based data acquisition pipeline on a Raspberry Pi platform to interface with a spectroscopic humidity sensor, targeting improved A/D conversion rate and signal quality.
- Conducted SNR analysis, statistical modelling, and simulation testing to evaluate sensor performance and identify hardware and software optimization opportunities.

## ACHIEVEMENTS

- **2024 - 2025:** Woitas Family Leaders Scholarship Recipient
- **2023:** Second Place Winner in the RBC Fast Pitch Competition
- **2020 - 2021:** Schulich School of Engineering Dean's Entrance Scholarship Recipient
- **2020-2021:** President's Admission Scholarship Recipient at the University of Calgary
